

About ISSL :

Mission :

To provide safe, reliable, and cost-effective stem cell banking and therapy options to people world-wide.

Vision :

We aim to become the world-leader in providing stem cell banking and therapy services by focusing on better technology, lower costs and improved treatment outcomes.

International Stem Cells Service Limited (ISSL) is a premier Stem cell company, with expertise in Stem cell Banking and Therapy. The company is the brainchild of **Dr. S.G. Ananda Rao**, Former Head, Chemotherapy, Cancer Research Institute, Mumbai. He is accredited for having started the **first cord Blood Bank** in India.

ISSL is the first knowledge based company in India which is offering **Stem cell Treatment** option to the clients along with banking facility. **ISSL** has spearheaded clinical trials in a number of diseased conditions and is offering stem cell treatment in the following conditions:

- Osteoarthritis
- Late stage peripheral occlusion (Ischemic Limb)
- Diabetic Foot Ulcer
- Diabetic Neuropathy
- Non healing wounds
- Non healing fractures
- Chronic Liver Failure; Liver cirrhosis
- Spinal Cord Injury
- Ischemic heart disease.
- Chronic Kidney Disease
- Cancer therapy
- Muscular dystrophy
- Diabetes I and II (Insulin dependent)

**It is the only company which has cGMP facilities in two major metros
Mumbai and Bangalore.**

ISSL and Banking:

ISSL is the only company offering Banking options in Umbilical Cord blood and Cord derived Mesenchymal Cells. We are also offering banking of Lipo aspirates, mobilized stem cells and Bone marrow derived stem cells.

Why ISSL?

- All procedures done under cGMP conditions. Samples are stored in multiple vials to facilitate multiple time usage (**very very important**) in the event the cells are needed for clinical applications.
- As cord blood banking is time bound, ISSL has the convenience of processing the cord blood within 24 hours as ISSL has processing cGMP unit in Mumbai and Bangalore.
- **Only Company offering expansion of all three types of cells.**
- **FIRST Company to start Cord Banking in India way back in 2003.**
- **ISSL is the only company which has invested in clinical trials.** This increases the confidence of our clients, and helps them decide to bank with us, as they can value the concept of Cord Blood Banking.

Recent ruling in the European Union, banning the running of stand alone cord blood banking facility without treatment options, has reinforced our stand in India as the only company offering treatment options with Cord Blood Banking.

ISSL is geared to make stem cell therapy and banking most affordable, hence our costs are the lowest in the market.

We offer discounts for treatment for any member of the family requiring stem cell therapy.
